Suraj Savle

React & Next.js Developer | Focused on Building Clean, Fast, and User-Centered Web Interfaces | Actively Seeking Internship Opportunities

Navi Mumbai, Maharashtra, India

Summary

I am a Full-Stack Developer currently pursuing my Bachelor of Computer Applications (BCA). I build complete web applications — from responsive, user-focused interfaces to backend logic and database integration. My core stack includes React.js, Next.js, JavaScript, Tailwind CSS, Node.js, Express, and MongoDB, and I also make use of AI tools to speed up development, problem-solving, research, and productivity.

I enjoy understanding how systems work end-to-end and translating real-world needs into clean, scalable, and efficient digital solutions. I constantly explore new technologies, development workflows, and modern best practices to improve as a developer.

I'm always open to collaboration, networking, and new opportunities. Let's connect and build something impactful.

Education

Chhatrapati Shivaji Maharaj University, Panvel

BCA, BCA · (November 2023 - November 2026)
